

REMARKS

Claims 6-10 have been rewritten to more definitely set forth the invention and obviate the rejection. The present amendment is deemed not to introduce new matter. Claims 1-12 remain in the application, claim 12 having been withdrawn from consideration.

Reconsideration is respectfully requested of the rejection of Claims 6-10 under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

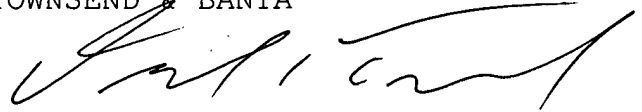

Claim 6 has been rewritten in independent form. Further, claims 6-10 have been amended to delete the objectionable term "type". As such, it is believed that the rejection is now moot. Withdrawal of the rejection is respectfully requested.

The prior art made of record, but not relied upon in a rejection herein, is acknowledged. The Examiner has apparently correctly recognized the inapplicability of said prior art as a bases for rejection herein.

In view of the foregoing, it is respectfully submitted that the application is now in condition for allowance, and early action and allowance thereof is accordingly respectfully requested. In the event there is any reason why the application cannot be allowed at the present time, it is respectfully requested that the Examiner contact the undersigned at the number listed below to resolve any problems.

Respectfully submitted,
